

Styling & Furnishing

By The Night

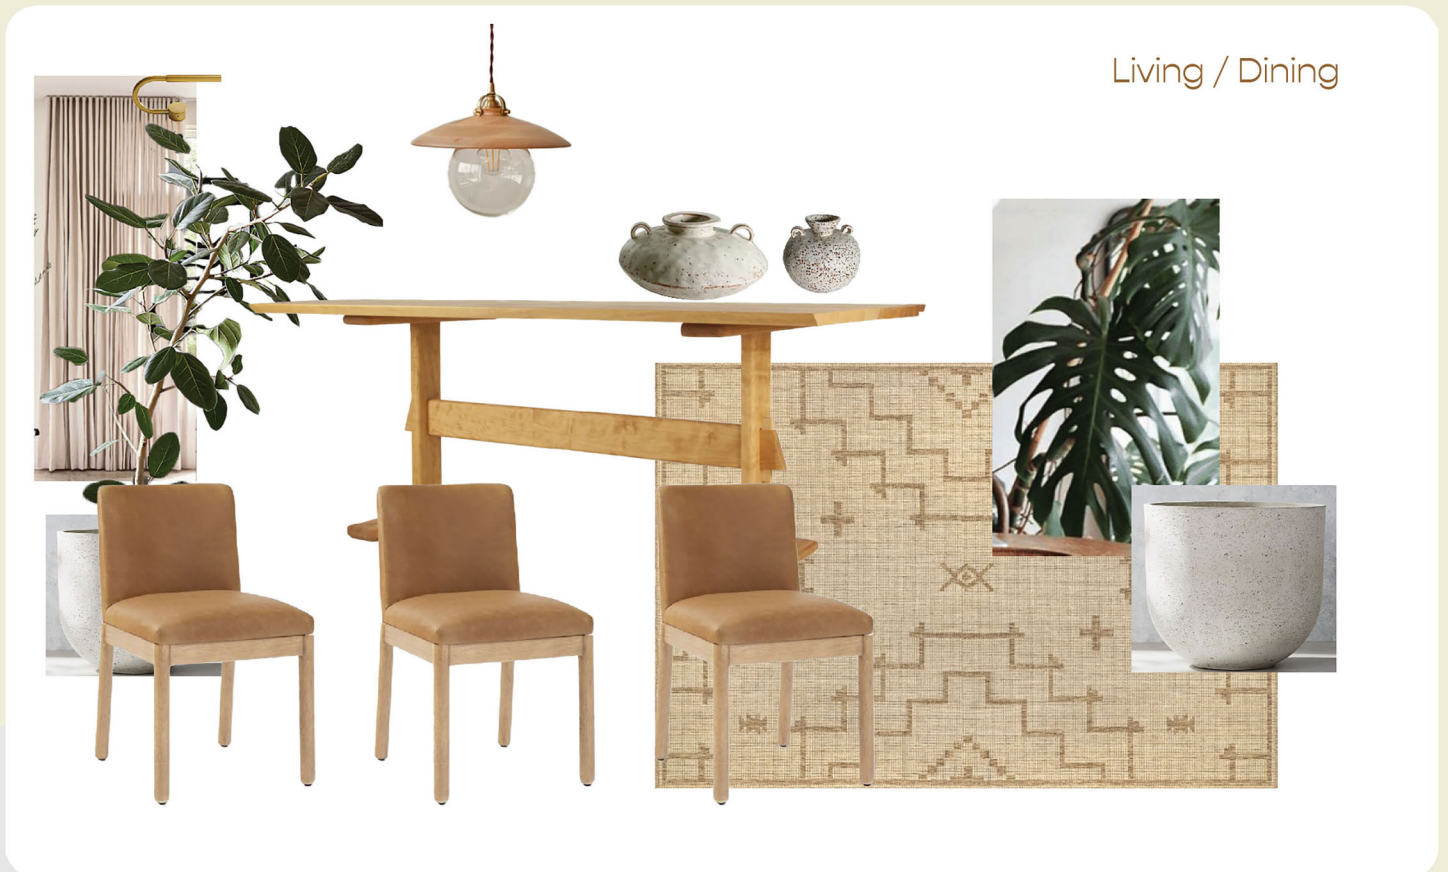

We understand the crucial role that thoughtful and considered styling plays in the success of an Airbnb listing. We've noticed that many property owners overlook the importance of creating a visually appealing and inviting space, which can significantly impact their bookings and overall revenue.

Our Styling & Furnishing team are here to assist you in transforming your property into an irresistible Airbnb destination.

Our value is in our ability to curate interiors in a variety of styles, showcasing the unique character and charm of each property. We pay meticulous attention to detail, considerately selecting furniture, decor, and accessories that elevate the overall ambiance and create a welcoming atmosphere.

Sourcing, Installing, and Styling:

We offer a competitive hourly rate for our comprehensive services, which includes sourcing furniture, decor, and accessories, as well as their installation and styling within the space.

Mood boards may seem like a trivial exercise but they are key to visualising the look and feel of a space.

Primary Bedroom

Customised Quotes:

To ensure transparency and flexibility, we like to quote based on the specific requirements of each project.

We take into account factors such as property size, number of rooms, desired style, and any additional requests or preferences you may have.

This allows us to offer a fair and tailored fee structure that meets your budget and objectives.

Pricing

Site visit and Quote:
Free

Mood Board:
\$500

(Creditable upon completion of project)
